About Dd3D Works

Dd3D Works (formally Details Design, a partnership established in 1994) is based in Umina Beach near Gosford on the Central Coast of NSW. Wholly owned by its directors, it has a policy of reinvesting profits into technological research to keep it at the head of its field.

Dd3D Works has a proven track record in delivering accurate, high quality products to their clients and take considerable pride in customer satisfaction. As independent consultants, Dd3D Works seek out the best and most sustainable technologies to suit their clients' needs bringing genuine benefits to their organisations.

"Specialists in precision 3D infrastructure and urban modelling, Dd3D Works provide standalone and maintained systems to urban planners, government authorities and utility suppliers."

Leading Edge Technology

Specialists in precision 3D infrastructure and urban modelling, Dd3D Works provide standalone and maintained systems to urban planners, government authorities and utility suppliers. Dedicated to providing practical applications of leading edge technology they are in the forefront in providing VR techniques for urban planning and engineering analysis. This experience is complemented with a sound knowledge of GIS, centralised spatial data management systems and both air and ground surveying.

The company is currently engaged in projects throughout NSW, ACT and Victoria for Federal, State and Local Government as well as public and private corporations.

Reputation for Excellence

Dd3D Works operate across disciplines bringing together specialists teams where requirements demand a broad approach to achieving successful outcomes.

As Details Design the company personnel participated in the Warren Centre initiative Underground Space Project and were founding members of Underground Vision which looked into the data capture, information management and visualisation of Sydney's Underground environment.

Since its beginnings 12 years ago the company has a record of consistently exceeding client expectations and has established through the hard work and dedication of its staff and associates a solid reputation for excellence.
