3D VR Modelling Specialists

Dd3D Works work at the forefront of VR applications for urban planning and engineering analysis. They specialise in large scale 3D city and infrastructure modelling, implementing active planning systems with real-time visualisation and simulation.

"With Dd3D Works you know that you are getting the best. Combining their numerous years of experience in the industry, meticulous attention to detail and ongoing knowledge of cutting edge technology, Peter and Lynn are leaders in their field."

- Ben Stevens, Spatial Information Consultant, Parramatta City Council

News

ASIBA Excellence Award

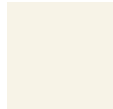

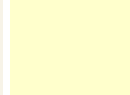

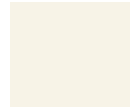

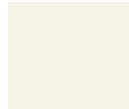

Dd3D Works was joint winner with Qasco of the 2006 ASIBA Victorian Spatial Excellence Award (Measurement and Mapping) for the Mornington Activity Centre 3D VR Model.

This project went on to gain a commendation in the 2006 ASIBA SE Asia and Pacific Excellence Awards.
